Subject: East Chicago --> any updates on timing for sending letters?

Hi Rita and Val,

Have there been any more decisions on when the East Chicago results letters to residents should go out?

Our website says the Open House is scheduled for Saturday, Jan. 28, 11 a.m. – 3 p.m. (link → <https://www.epa.gov/uss-lead-superfund-site>). Can we try to get letters out before the Open House so that residents could bring them along if they have questions?

Here are some outstanding questions:

- Is the wording for the letter finalized? If not, what's the next step?
- Are we going to loop in the City and State on the content before it goes out? (Seems like we should, even if it's just as a courtesy but not for comments.)
- What about addressing Peter Grevatt's concerns with the graph?

As a side note, Miguel and Public Affairs have been spending time on how to respond to the Young Turks videos. Given all of the community focus, it seems like getting the letters out could be one way to address public concerns about transparency.

Val – based on what you've seen of the data, do you have advice on sending out prelim results vs. waiting for the final?

Thanks,

Andrea Porter

Subject: East Chicago data/letters

Chris is looking for the current state of the East Chicago data. Based on the spreadsheet it appears we have 12 homes with final data for both S1 and S2, 24 homes with S1 and S2 data, not both final yet, and 7 homes still missing S2 data results. Can you confirm that I have this right? Attached is the spreadsheet I used to generate them. Chris' thought was to send each home 1 letter when we have final data from both rounds. However, do we have any idea how much longer it will take to get the remaining data? If it will still be awhile, Chris may decide to move ahead with prelim data. Thanks!
